

Session 15

WAVELET THEORY AND ITS RELATED TOPICS

Organisers: Keiko Fujita (Toyama) and Akira Morimoto (Osaka)

August 06 / 2013, Room 309

16:00--16:30

Akira Morimoto, An estimation method of shift parameters in image separation problem

16:30--17:00

Naohiro Fukuda, On the interpolation of orthonormal wavelets with compact support

17:00--17:30

Kensuke Fujinoki, Redundant Lifting Scheme for Multiscale Keypoint Analysis

17:30--18:00

Keiko Fujita, Gabor transform of analytic functional on the sphere
